

2ND INTERNATIONAL CONFERENCE OF SUSTAINABLE EARTH RESOURCES ENGINEERING 2022 (SERIES2022)

Centre for Sustainability of Ecosystem and Earth Resources (Pusat ALAM) is organizing an international conference as a platform of academic branding for the centre as well as part of the centre's purpose in disseminating knowledge. The conference will focus on research and technology related to earth natural resources. SERiES2022 targets participation among students, lecturers and researchers from universities, research centres, public and private agencies and related organisations from local and abroad. This conference will also be a platform to promote Pusat ALAM specifically and UMP generally, as a research centre specialising on soil, water and mineral resources in Malaysia. It is also hoped that SERiES2022 will also be a venue for strengthening relationship among similarly focused researchers of the said field.

This 2nd International Conference of Sustainable Earth Resources Engineering 2022 (SERiES2022) is a continuation of a national conference hosted by ERAS (SERiES2020) which now rebranding to Pusat ALAM. This conference also will be featuring 17th Regional Geoscience Congress of South East Asia 2022 (XVIIIGEOSEA 2022) organized by Geological Society of Malaysia (GSM) and Department of Mineral and Geoscience Malaysia (JMG).
